

HEY

My name is Kami and I am a Visual Designer from Jaffa.

Ever since I was a little girl I found myself having great interest in the art and design world.

I see in communication design an amazing tool that can be used to express opinions, believes and transmit messages in the most precise way.

I am passionate about a large range of creations - from motion design and story telling to product design and UX/UI and I am always open for new and exiting challenges that will come in my journey.
